LEST WE FORGET!

Said a young and tactless husband
To his inexperienced wife:
"If you should give up leading
Such a fashionable life,
How to fine the cooking—
How to mix and when to bake—
Then perhaps you might make pastry
Such as mother used to make."

Such as mother used to make."
And the wife, resenting, answered
(For the worm will turn, you know)
"If you would give up horse.
And a score of clubs or so,
To devote more time to business—
When to buy and what to stake—
Then perhaps you might make money.
Such as father used to make,"

It was ready to show that it was not wedded to its own measure, that it was willing to pass any fair bill. When it had thrown all, responsibility on the House bill and proceeded to make it a fair measure. It substituted the Treasurer of the State for the Clerk of the Court of Appeals as the third man on the State Board. An amendment was passed making the County Clerk the third man of the County Board. The number of names to be submitted by the party committees for Precinct officers was reduced from eight to four. Amendments were passed, making the duties of the State and County Boards ministerial only. When the Secand had thus made the House bill really a new and fair measure, Senator ITOMAS on behalf of the extremists, thinking to confuse the anti-maching majority, offered a substitute restoring thinking to confuse the anti-machin the law as it existed before the enactment of the Goebel Law. But they were not to be caught, says The Louisville Dispatch. The substitute was amended to require the County Judges to appoint from lists furnished by the party committees, and providing for the alternation of the Sheriff, and with these amendments it was passed, thus putting all of the Senate opposition to the machine on record as in favor of the absolute repeal of the Goebel Law, while the Goebelite extremists are on record against every the law as it existed before the enactextremists are on record against every fair proposition.

of a fair law.

The Legislature has been in session for six weeks with nothing before it but the election laws and the farce has already cost the State nearly \$40,000. Every day of delay is an expense of \$1,000 to the tanpayers of Kentucky. If the bosses are determined that nothing is to be done, if they are determined that this expense shall be for absolutely nothing, it this extra seas a part of a desprease game of politics, why should deception of the people and the plunder of the Treastry roccel farther ?
